For Tod, seeking advice from a psychic reader is always about finding the path to one's best life. "With each client, I attempt to reach information that will empower and promote their higher good. I am as pleased and delighted as they are when a reading helps someone heal or better their life. For me, this is the real reward."

Tod has been offering his services as a reader since he was a young man of 20. It was a family tradition to offer their intuitive gifts to others, as his grandmother had been a reader of tea leaves. He began his career as a psychic using a pendulum, but soon found he liked the more specific information he could reach through the tarot. "I was drawn to the tarot as a discipline to further my intuition, using the symbols to reach more complex information with greater clarity."

"I feel that the divinatory arts and sciences can be a big help to my clients in decision making and avoiding potential pitfalls in advance, as long as one pays attention and is committed to being a conscious creator of one's own life. The future is not set, and patterns can be changed by making conscious choices. I am here to guide and assist in this, but the choice is up to the client."

Tod's readings are done primarily done through the tarot, though he can also work in other modalities, if the client prefers. In addition to giving psychic guidance to his clients, Tod has written about and taught others about the divinatory arts. He also makes divination and ritual tools, which he will be vending at Michigan Psychic Fair events in addition to offering his psychic services.
