

Reader Spotlight: Ask Laura

Professionally reading since 1991, Laura uses psychometry during her readings. She holds a personal object belonging to the person and can see, hear and feel things about them. “I love the feeling of holding your energy and telling you what I see.” Laura also channels spirit from the other side, bringing her clients messages from their loved ones. In addition, she is an animal communicator and does palmistry and numerology.

Laura’s gifts came through at an early age. “I’ve had a ‘knowing’ since the age of 4, I just didn’t know it was called being psychic”. She took a psychic development class in 1991 and developed her skills of being clairvoyant, clairaudient and clairsentient. It was during these classes that she learned about psychometry and found she was better at doing readings by holding an object. She also learned about numerology, how to read auras and honed in on her skills.

Working at the fairs is like having a second family to Laura. “I love working with Michigan Psychic Fair. Everyone here is supportive, friendly and encouraging. It has given me opportunities to work with and meet wonderful people, whether clients or people at Michigan Psychic Fair. It has allowed me to grow my business from Skype and phone readings worldwide to teaching classes and traveling across the country for readings and lectures.”

Of her readings, Laura says “I am very easy to sit down with. I’m descriptive and detailed with what I tell you”. The types of customers who come to Laura “are looking for someone who will be honest with them, not sugar coat things and not tell them what they want to hear. They are also looking for other modalities for readings besides Tarot cards.” Laura is also a hypnotherapist. She does past life regression and future life progression. It is a field that she is truly passionate about. She also brings this passion

to her readings. “I love being able to guide people with their life’s journey.”
